CLHF 'A-Z of Speakers' – Speaker Feedback Report

The Federation publishes the A-Z of Speakers for local history in Cumbria, extra copies of which may be purchased from the above at £3, posted within the UK. Speakers are included on the list by their own request, and the Federation suggests that societies and groups use this form to give feedback to speakers on how their presentations have been received by a typical but anonymous member of the audience. The Federation does not expect to receive copies, but any comments on the working of the scheme would be welcomed by the above person, including new speakers and talks for the list. This form may be photocopied or printed from our website.

The use of the form is completely optional for societies and speakers. It is suggested that societies check with visiting speakers that they would be happy to receive such feedback.
